

## New Managers Plan Improvements at Lakeside Airport

New managers of Lakeside Airport plan extensive improvements and remodeling and possible expansion of the airport's acreage from the present 80 acres to 150 acres, it was announced Saturday.

The new managers are William Jennings of 2301 Terminal avenue, a clerk in production control at Granite City Steel Co., and Edward Shafer of Collinsville, who operates a laundromat there. Both men are pilots. Shafer, who has an instructor's license, is giving flying lessons. Jennings plans to take an examination to become an instructor.

The new managers plan a sun-up to sun-down operation, and a commercial pilot and an instructor will be available on a full-time basis.

Jennings and Shafer entered into a contract with the J. J. Harklerod estate, owner of the land.

**Improvements Planned**

The airport is in full use, and remodeling is planned along with additional facilities, including hangars, runways and taxi surfaces, with the grounds to be resurfaced. A flying club also is in the making.

Operation of the airport under lease had been carried out by Omar Midyett, who had leased the airport since the 1940s.

His lease expired on Dec. 14, and the property was vacated Jan. 4. A. Madeline Henrick, trustee of the testamentary estate, has sued Midyett for double the annual rental of \$4500. The suit also claims that since Midyett is no longer a tenant, he has lost his option to buy the property.

Under the terms of the trust, the property is to be sold later than Dec. 28, 1973, the 10th anniversary of the death of Mr. Harklerod. It is to be sold by private negotiation rather than by bidding.

An initial suit was filed against Midyett by the estate last fall.

Five persons were injured in a three-vehicle accident at 2:40 a.m. Sunday on Sand Prairie lane at the canal bridge a quarter mile north of Interstate 70.

However, a third auto driven by Ross McGee, 28, of 1435 Fourth street, struck the Sprater car and knocked it into the incoming traffic lane.

## Lengthy, Hectic Meeting Likely Tonight

A lengthy and probably rambling session is anticipated for tonight's 8 o'clock Granite City council session.

The four-page, heavily-laden agenda went out to the aldermen on Friday from the mayor's office, and at least a half-dozen highly debatable subjects are listed.

Among them are the one-way traffic proposal, a report on the often-delayed Nameki road project, a written opinion on the mayor's power of appointment of

## Nameki Rd. Bidding May Be Set In March

### Federal, State and City Meeting Results to Be Known in Few Days

State Highway Department and Granite City officials were working today toward elimination of all encroachments on the right-of-way of the Nameki road improvement project and said they are "very hopeful" the project will be included on the March 4 bid for the Nameki road.

Negotiations with owners of property on which the obstacles are located were completed immediately after a meeting Thursday between state and city officials and a representative of the U. S. Bureau of Public Roads to learn in detail what requirements must be met in quality for a bid on the Nameki road.

The group, which included Mayor Donald Partney, toured the right-of-way following the meeting to study each individual encroachment problem and to determine what must be done to clear the right-of-way.

The next bid by the Illinois Division of Highways is set Feb. 10 for the March 4 contract opening. The Nameki road project had been included in the Jan. 7 bid call for a Jan. 28 contract opening but was knocked out of the list by the U. S. Bureau of Roads because the right-of-way obstacles had not been completely removed.

Such encroachments include poles, light standards or other obstructions on the right-of-way, as well as signs, canopies or any other object which overhangs the right-of-way, even by a matter of inches.

C. M. Monnier, district engineer of the Bureau of Roads for the St. Louis district, ruled that the State will not be inclined to bid a contract until the encroachments are removed completely.

**Caught by Surprise**

The new setback in the road improvement project that has been hanging fire for six years, despite the fact that the city council approved a contract for the project, was caught by surprise, said the city had been negotiating for the project for some time with the impression the job would be included in the Jan. 28 contract opening.

There have been no accidents involving children at the crossing, he said, but there have been some close calls. The intersection contains school stop signs, but no caution lights or flashing lights. The crossing is a school crossing, and the alderman has been asked to install a school crossing guard.

Mrs. Fleishman said PTA members were called out this morning because the council must tonight, she said, to determine if the demonstration will continue if the group is not satisfied at the night's meeting.

**GC Demos to Hear Talk by George Musso**

## Pre-Draft Call Tomorrow

A group of 50 Quad-City youths is to report tomorrow to the county selective service office in Edwardsville to go to an Army examination center for pre-draft physicals.

On Jan. 28 an induction call for Quad-Cityans is scheduled—the first of the new year.

A spokesman for the county draft board said that the induction call is for the first time, but that in federal selective service terminology a man is classified as single if he is married after midnight last Aug. 26.

## Burglar Searches Even Ice Cube Trays in GC Home

A thorough job of ransacking was carried out by a burglar who entered the home of Theodore Polson, 3601 Franklin avenue on Saturday.

In the 75 minutes the family was away between 2:45 and 3:15 p.m., the intruder emptied all closets, cabinets and drawers in the seven-room home and even dumped out the ice cube trays from the refrigerator.

While Polson has been unable to determine if anything was taken, he believes the ransacking was the work of youngsters.

Entrance was gained through the garage in which there is a double door leading to the kitchen. Rooms on both floors of the home were strewn with the closet and drawer contents.

## Mothers Block Benton Street

### In Bid for Guard

About a dozen women, including the Neighborhood School PTA, blocked Benton street on Oregon avenue between 8:30 and 9 a.m. today to escort their children across the street safely while enroute to school.

They demonstrated in support of their demands for a school crossing guard. The school is on the other side of Wilson Park and many parents were driving their children around the park to school.

Seventh Ward Alderman Robertson, who assisted the women, said the city council approved a guard for the crossing last October by an 11-5 vote after a petition containing about 250 signatures was presented to Mayor Partney and the council.

Mrs. Arnold Fleishman, PTA president, said requests have been made to Mayor Partney for assignment of a guard, but he has refused to do so. Mayor Partney said he has asked Robertson to make a motion for transfer of funds to the school crossing guard account but the alderman has refused.

Mrs. Fleishman said PTA members were called out this morning because the council must tonight, she said, to determine if the demonstration will continue if the group is not satisfied at the night's meeting.

There have been no accidents involving children at the crossing, he said, but there have been some close calls. The intersection contains school stop signs, but no caution lights or flashing lights. The crossing is a school crossing, and the alderman has been asked to install a school crossing guard.

## Arrest of Youth Cears 16 House Burglaries in GC

A young boy taken into custody Thursday afternoon admitted 16 burglaries over a period of 2 1/2 months in Granite City, and told police he pawned items valued at over \$2000 and spent the \$300 in cash he obtained.

The boy, 14, who had been turned over to authorities of the Illinois Youth Commission, included using a straight razor to padlocked numerous thefts from parked cars, and is to be questioned further on other house burglaries which occurred since Jan. 1.

Chief of Detectives George Teller said there is hope some of the loot, including jewelry, a shotgun, typewriter, cameras, radios and private coin collections, can be recovered.

## Routine IYC Pickup

The boy, who was taken into custody for routine pickup for a C. J. admission, was taken to the Illinois Youth Commission, and it is possible the loot is cached elsewhere. Under questioning, the youngster denied he had any accomplices.

The youth is from a broken home and lives with his mother, who is unable to get around to homes in the Nameki area by car, which he drove himself. However, details on how he obtained the loot were not disclosed.

**Shoplifting, Vandalism**

Chief Teller said the boy first got into trouble in 1963, when he was turned over to juvenile authorities. He was released in October 1964, and then was turned over to the IYC in November 1964 for shoplifting and looting parked cars and for vandalism that included using a straight razor to shoot holes in large plate glass windows at downtown business establishments.

In looting the homes on Lynch avenue, Clark, Waterman, Richmond, Willow, Wilson and Lydia lane in the Nameki area and on 27th street and on Grand avenue, the boy used various methods of entry.

He was adept at forcing doors open or crawling through unlocked windows, and occasionally he found a house with an unlocked door.

**List of Names**

The homes he admitted entering and looting were:

A. V. Dickerson, 3113 Willow, Oct. 18; A. L. Franzer, 2205 Willow, Oct. 18; J. J. Jones, 3116 Willow, Nov. 3; Margaret Reznick, 3438 Clark, Nov. 4; James Vaughn, 3431 Lydia, Nov. 5; Dorothy Ruff, 3324 Lydia, Nov. 6; Virgil Mercer, 2420 Pontoon road, Nov. 10.

## Space for Big Township Meeting Turnout Urged

Predicting a large attendance at the annual Nameki township meeting in April, the Committee for Economic Improvement of Nameki Township late last week wrote to the town clerk requesting that "adequate facilities" for such attendance be provided.

It was noted that at the last annual town meeting in April 1965, there was "much dissatisfaction, confusion and chaos," which the CEI group feels should be avoided in future meetings.

Concisen was expressed over "the recent borrowing of large sums of money by anticipation warrants by the township." The 1966 CEI officers, President Michael Ropac, Vice-President Willard Hicks, Treasurer Edson Phelps and Secretary Gerald Voorhees, also have written to township officials requesting a meeting to "explore the possibilities of a sewer plan whereby citizens and elected officials could work together to formulate a feasible and economical plan to be presented to citizens for their consideration." No reply has been received, the officers said.

Committee for Economic Improvement goals for 1966 have been established as working closely with residents of all areas of the township to "keep them informed on expenditures, taxes and ordinances and their effects on taxpayers."

## Mothers' Marches Scheduled for Jan. 31

A request for everyone to turn on their front porch light the evening of Jan. 31 to aid volunteers seeking funds for this year's March of Dimes was made today by Mrs. Weldon C. Burch, who with Mrs. Lloyd C. Harris are co-chairmen of the 1966 "Mothers' March" project in Granite City, Pontoon Beach and Stalling.

Similar sentiments were echoed by Mrs. Charles Voloski and Mrs. Leonard A. Hylla, who are directing the "Mothers' March" for funds in Madison, scheduled for the same night.

Contributions from Granite Cityans will be sought by individual neighborhood women, whose door-to-door campaign will be coordinated by 32 captains, one captain responsible for each of the city's voting precincts. Names of the captains whose appointments were announced today by Mrs. Burch and Mrs. Harris are listed below.

In addition to the "Mothers' March," plans are under way to enlist the aid of the Granite City Young Republicans and Young Democrats club, the co-chairmen said. Other fundraising projects by teenagers may also be arranged by the Junior Leadership Girls' Club of Granite City high school.

If assistance by the young people is secured, Mrs. Burch said, they will probably make their funds for donations in the Pontoon Beach, Stalling and rural Granite City areas during daylight hours on Sunday, Jan. 30.

**Teenage Dances Planned**  
Members of the Madison Junior Service Club will conduct the "Mothers' March" in that community, aided by several other volunteer workers. Plans for teenage dances in both Granite City and Madison, with proceeds to go to the campaign, have not yet been completed.

## K. C. Council Plans Communion, Breakfast

Tri-City Knights of Columbus Council 1088 announced plans for a corporate communion and breakfast to be held Jan. 30 at St. Elizabeth's Church during a meeting Thursday night.

Following the meeting, the council donated \$50 to the Shrine of Our Lady of the Snows at Belleville. Dan McGee, general program chairman, read a letter from Mrs. Jacqueline Kennedy in response to the donation of a chalice in memory of the late president. The letter is to be on display next to a portrait of the president.

The council added its commendations to Dr. Felicia Koch, the metropolitan area woman of the year, and ordered that a letter be sent to her in that regard.

A year-long financial program to provide toys for needy children at Christmas time was instituted. Steve Salich, Columbus Home Association president, reported that remodeling of club rooms has been completed.

Leo Portell, faithful navigator of the fourth degree assembly, announced that the annual initiation of new members in the Southern Illinois district will be held on Feb. 24 at Belleville and applications are now being accepted. Edward Boyer and M. E. Bartosik were named to the sick committee for the month.

Rev. Lawrence Mattingly, council chaplain and vice-chairman of the mayor's commission on obscenity, urged continued support of members in eliminating indecent literature and reported that it is a prime program of the national K. C. of C. organization.

The meeting was conducted by John Koizman, grand knight. A lunch was served.

## Jr. Optimist Club Benefits Outlined

Recounting his experiences as a member of the Junior Optimist Club in Milwaukee, Wis., several years ago, Dr. Robert Engbreton, head of the psychological and guidance department at Southern Illinois University-Edwardsville, told Granite City Optimist Club members of the far-reaching influence this phase of life had in his future career.

The educator said that participation in Junior Optimist activities provides a youth with an excellent background for adult responsibilities. For six years, Dr. Engbreton said, he competed in numerous Optimist sponsored oratorical contests, winning several district honors. He also commended the local club for its work with the youth of the community.

Dr. Engbreton spoke at a weekly luncheon meeting Thursday in the YMCA. He was introduced by Dr. Raymond E. Troyer, also an SIU-ESU campus professor and a member of the Granite City Optimist Club.

Wilbert Triches, vice-president and membership chairman, discussed plans for the club's membership and attendance drive, slated for February. ## Survey Vehicle to Check Gas Mains

Illinois Power Co. will make a routine check of its underground gas mains in Granite City, it was announced today.

Again this year the survey will be made at night, when traffic is at a minimum, and will be done without digging. The survey vehicle is a converted van truck with tentacle-like tubes which may be positioned to the front or to either side of the vehicle.

At the ends of the tubes are sensing devices which are held close to the ground above and adjacent to the mains. As the vehicle moves, a pen traces a picture of the main's condition on a moving chart.

The van will be operated by personnel from Southern Cross Corp., owners of the vehicle, and Illinois Power Co. It will make two surveys this winter of 26 communities served by the utility.

The surface method is regarded as a major improvement over old methods in which the pavement was drilled at intervals, causing traffic interruptions.

# Foul Caled at Buzzer Wins Game for Maroons

By Press-Record Staff Photographer

Leading Warrior Score

## Moore, Hentzel, Stuart Foul Out; Wortham Ousted

Belleville's Ray Wiley sank one of two free throws after the final buzzer had sounded, and gave the Maroons a slim 52-51 victory over Granite City in the championship final game of the Dupo Invitational tournament, Saturday night.

From the first tip-off, the Warriors outplayed the Maroons in all phases, and with major handicaps.

The two officials found it necessary in their opinion to send Elmer Wortham of Granite City and Jim Martin of Belleville to the showers in the first period of the game. Unsportsmanlike conduct was their reason.

Moments later in the second quarter, the pair of officials called a fifth foul on Terry Moore, forcing him out of the game.

Belleville coach Jerry Turner was seen to stomp, cry and prod the officials into calling the fifth foul on Moore, and the fourth and fifth fouls on the Warriors' Jim Hentzel.

Turner was up off the bench shouting at the officials, prodding them into calling the fouls, and finally the fouls were called. A total of 43 fouls were called, and 48 floor violations were "caught" by the officials.

**GC Scores First**

The Warriors scored first on free throws by John Stuart and Moore, and held a 2-0 lead before Belleville's Sid Clemens hit on a jump shot to tie the score at 2-2.

After that, Moore hit on a jump shot, Hentzel hit on another, and the Warriors were out front until mid-way in the fourth period.

When Wortham was thrown out of the game, Bill O'Neill replaced him. Bob Malott went in when Moore fouled out, and Dave Dugler replaced Hentzel, after he fouled out.

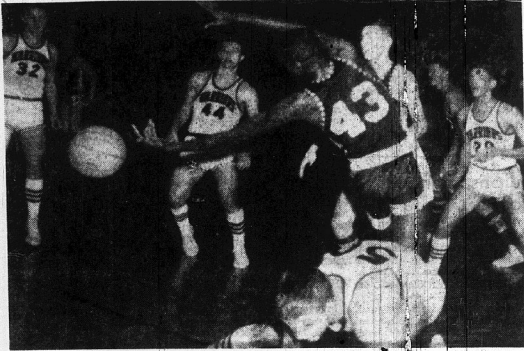

Dugler was hit on the head by Belleville's Bill Sellings in the fourth quarter and had to be taken to the locker room. Danny Cox replaced Dugler.

The officials called a fifth foul on John Stuart, and Steve Clark came into the line-up.

Only One Regular

In the fourth quarter, Granite City had only one regular player.

(Continued on page 7, col. 1)

A CLIPPING PENALTY could have been called by officials on Granite City's Terry Moore (50) in first quarter action of the Granite City-Belleville contest for the Championship of the Dupo Tournament Saturday night. Belleville's Joe Wiley (43) tripped Moore, Moore fell, clipping Wiley. Officials called a foul on Moore.

## Edwardsville Coach Quits; Joins Dupo Coach In Unemployed Line

Pat Price, the football coach at Edwardsville, turned in his resignation last week and became the second grid mentor to join the ranks of the unemployed.

Dupo's Don Brubaker resigned in November, but said he would remain as athletic director. Price, said that he would remain in the Edwardsville school system, but would keep his eyes open in case any coaching opportunities developed.

As of Saturday night, the Dupo school board continued stating tactics in filling the open football coaching position. The board has delayed hiring Brubaker's assistant, Paul Stewart, saying, "We want to see what teaching positions will be open, so the board can have a better idea what kind of a man to look for."

The Dupo school board has indicated that they will not fill the vacant position until they can get a coach with qualifications to teach elsewhere in the senior high school.

Meanwhile at Edwardsville, Price said strongly that he was doubtful he would consider an assistant coaching job.

Brubaker's Dupo Tigers lost 22 straight games before cracking the win column. Price coached Edwardsville to a 6-6 Southwest conference record, scoring 16 points to opponents' 169 points.

Applications are being accepted at both schools for the vacant head football positions.

### Ill. State Mat Tournaments Facts, Figures

Downstate and suburban Chicago schools, numbering 227, will participate in the Illinois State High School Association's wrestling tournaments this year. The number is an increase of 21 schools over last year's enrollment figure and is an all-time high for schools entered for the first time.

Of those participating, 25 were one or more years. Five schools which entered last year, will not participate this year.

Ten years ago, only 94 downstate and suburban Chicago schools were entered in the series.

The Chicago public high schools will conduct their own elimination matches with the first and second place winners in each weight class advancing directly to the state finals this year.

Last year, Granite City and Reavis of Oak Lawn tied for the state high school title with a 10-0 record. All three teams are strong contenders to repeat their top ratings this year.

### Bunker Hill Loses Standout Guard

Bunker Hill, current leader in the MCM conference basketball race, has been hurt by the loss of their star guard, Larry Allen, who had played the point position on Bunker Hill's 1-2-3 zone, was taken to the hospital with a kidney infection last week.

His absence was noticed as Bunker Hill lost a 65-44 game to the conference foe Warden Friday night, and were temporarily stymied by Aviston before winning 32-19 last Tuesday.

School officials said that Allen would probably miss the remainder of the basketball season. A 5'11" senior, he was a standout high jumper in track, hitting the 6-foot mark.

Dunbar plays its next game at Landsdowne junior high in East St. Louis on Tuesday afternoon.

In the first meet, Granite City whalloped Belleville, 42-0, and then beat Edwardsville, 24-19 in the nightcap.

Bill Fuchs, 95-pound class wrestler for Granite City, disposed of his two opponents via pinning. He pinned Edwardsville's Wayne Augsberger in 50 seconds, and pinner Belleville's Mike Bringham in 2:32.

The undefeated Fuchs has now stretched his winning streak to 20-0, with 17 pins, so far this season.

Mike Andri decided both of his opponents and improved his mark to 20-1. He outpointed Belleville's Gary Adams, 19-2, and beat Rich Crump of Edwardsville, 10-0.

The Warriors' Joe Martinez, normally wrestling at 103 pounds, took to Edwardsville's two-year sectional winner Cud Alexander in the 112-pound class. Martinez is now 10-0 on the season.

He wrestled in the higher class, as part of a shuffle by Warrior coach Bill "Red" Schmitt.

In winning both meets, Granite City increased their chances of winning the Southwestern conference title. The Warriors also won their ninth dual meet in nine outings this year.

(Larry Ripka) and one player with varsity experience (Bill O'Neill) in the lineup. Four of the Warriors top six players were ushered out of the game by the officials.

Snellings (6'7") used his considerable height advantage over the smaller and less experienced Granite City squad to score two baskets to pull the Maroons to within a 44-43 score in the fourth period.

Joe Wiley then hit on two free throws to give Belleville the go ahead sign at 45-44. The lead bounced back and forth, until O'Neill scored on a lay-up under the basket to give Granite City a 50-49 advantage.

Cox was fouled by Snellings, and Cox made the first shot on a one-and-one situation to notch the score at 51-49, Granite City.

Belleville's Dennis Russell sank a jump shot with two seconds remaining in the game to tie the score at 51-51.

A foul was called on Granite City's Bill O'Neill after the buzzer had stopped ringing, and set up the final to one of the greatest officiating mixups in years.

Ray Wiley stood at the line at the free throw line and made his first shot, missed the second on a one-and-one situation.

Belleville earned the chance to play the Warriors by thumping Roxana 77-56 Friday night.

Granite City defeated Jerseyville, 74-54 in a semifinal contest Thursday night.

The Warriors now sport an overall mark of 10-6, while Belleville is 10-3.

The Warriors disposed of Jerseyville in a well-balanced fashion. Terry Moore scored the first nine points for Granite City, as the Warriors took a 23-17 first period lead.

Granite City, behind the shooting and play-making of Larry Ripka, held a 46-28 halftime lead. Moore and Jim Hentzel finished with 16 points each.

Ripka was high scorer with 18 points.

Granite City continued to pull away from the Panthers, and at one time led by as much as 26 points.

Cox Ralph Sackett cleared the bench for the start of the fourth quarter, and the reserves managed to score nine points against Jerseyville's five best men.

Granite City not only won the scoring game, but won the rebounding and turnover games as well. The Warriors out-rebounded Jerseyville 38-24; gave up only 13 turnovers (10 in the last quarter) to the Panthers' 24; and shot 452 per cent from the field to Jerseyville's 386 per cent.

In the preliminary game, Dupu had no trouble in humbling the Freeburg Midways, 85-50.

### First Winter Recreation Day Slated For March 5

Granite City has been selected as the site for the first annual Winter Recreation Day to be sponsored by the Southern Illinois Parks and Recreation Association, Inc., and announced today by Harold Brown, superintendent of parks and recreation.

March 5 is the date and Brown

said he expects over 400 young sports to take part.

Planned activities include the following: basketball tournament for high school boys; basketball tournament for sixth grade boys; girls' volleyball and bowling tournament; and a boys' and girls' mixed doubles table tennis tournament.

Brown said youngsters from Highland, Carbondale, Centralia, Wood River and Alton would participate.

Ribbons will be given to winners, and a traveling trophy will be given to the city that scores the most points on the basis of overall competition.

"There'll also be a similar day for summer sports," Brown said. He continued to point out that the traveling trophy would be awarded twice a year—once at the winter recreation day, and once at the summer recreation day.

"This day was planned to create some inter-city competition among the park districts," Brown said. "The kids competing here will be those who did not get to play on a school team. Girls especially do not have school volleyball teams, so they'll get a chance for some out-of-town competition," he added.

## McCluer Cops Frosh-Soph Mat Tourney

McCluer high of St. Louis placed five individual champions and repeated as the team winner of the Granite City freshman and sophomore wrestling tournament at Granite City Saturday afternoon and evening.

McCluer, who won the tournament last year, scored 10 points while other schools trailed with the following scores: Ritenour 74, Granite City 65, Normandy 50, East St. Louis 42, Riverview Gardens 21, Wood River 3, Belleville 0.

The only class champion for Granite City was Bill Gibson in the 127-pound class.

In the battle of the Missouri schools vs. the Illinois schools, Missouri came out on top with eight class champions and a total of 255 combined points. Illinois schools, all of whom are in the Southwest Conference, had four champions, and a combined total of 110 points.

"Looking at the scores and the past year's results, I can see a trend where the West schools (Missouri) are getting stronger," said varsity mat coach Bill "Red" Schmitt.

It was the third championship for the West in the nine years the meet has been held. Granite City won all six years for the East. The Warriors won the first five years the meet was held, but only once in the past three years.

## Wortman Tax Trial Resuming Today In E. St. Louis

Frizzell testified he had worked at the Club Premier in the old Mounds Club building and became a partner in 1953. He said he held a 2% interest in the games and was informed after 73 days operation that the games were operating in the red and that he owed \$142 as his share of the losses.

Frizzell, a 34-year veteran gambling house workers, said he never saw Wortman in the casino, but was told of the losses by the late John P. Connor, who formerly lived in Venice. He testified that he considered Connor the boss, and that Gregory (Red) Moore of St. Louis was the office manager.

## Plan Commission Recommends Mobile Homes Restrictions

The Granite City Plan Commission approved Thursday afternoon its recommendation to the city council that it adopt an amendment to the city's zoning ordinance providing more strict control over establishment of mobile home parks, and in the same session gave tentative approval to a proposal for a 102-unit multiple dwelling development in the "million-dollar-plus" class.

Recommendation for adoption of the zoning ordinance amendment will be made to the city council in its regular meeting tonight. Further action on the apartment project, known as the Briarcliff Development, will await legal publication of a notice for a hearing to be held Feb. 10 by the plan commission. It will involve construction of a number of duplex structures and apartment buildings just south of West Pontoon road adjacent to the Clifftops Nursing Home.

The amendment would eliminate from Article 16 previous regulations for establishment and control of trailer parks and sets up minimum requirements for installing mobile home parks. The amendment provides that a minimum of ten acres in size and must provide a minimum of 50 mobile home spaces, and sanitary sewers. The concept of which must consist of a minimum of 3000 square feet. It also provides that there shall be no more than eight home spaces to each acre of land.

**Covers Residential Offices**  
The amendment also includes a new section providing that residential properties fronting on four-lane streets may be used by "professional" offices. This would affect residences on only 10, after which the commission would make its official recommendation to the council.

**Cost Not Disclosed**  
Hoelscher said the development company has not disclosed the building cost but that it would affect residences on only 10, after which the commission would make its official recommendation to the council.

governed by the length of frontage of the property.

Proposal for the 102-unit apartment and duplex home development was described by William Hoelscher, chairman of the plan commission, as "one of the best ideas that has come before the commission." Selected site for the development has separated storm drains and sanitary sewers. The construction would be carried out by minimum of 3000 square feet. It also provides that there shall be no more than eight home spaces to each acre of land.

The proposal was discussed by the commission, but officials said it was not taken due to the necessity of further publication requirements. Hearing on the proposal is to be scheduled Feb. 10, after which the commission would make its official recommendation to the council.

Such residences may be used by physicians, dentists, attorneys, architects, engineers, artists, musicians, teachers and accountants. In addition they may be used as offices by real estate agents, insurance agents, public stenographers and brokers.

mission, upon presentation of a petition, will recommend to the council that the area embracing the proposed new school be annexed to the city and that the school be allowed to hook into the city sewer system.

Hoelscher said the connection with the city sewer will be recommended even in the event that annexation is not legally possible at this time.

The commission recommended petitions for rezoning of property at 2807 Pershing avenue for Kozyak Market to allow for expansion of the store, from an R-2 to a C-2 zoning; rezoning of two lots at 2941 Johnson road from an R-1 to a C-1 zoning for construction of a building to house four physicians' offices and an ice cream parlor; and rezoning of two lots at 1509-1511 Pontoon road, from R-1 to C-1, for location of a tavern and restaurant.

Approval of petitions for annexation to the city of Granite City also was recommended by the Plan Commission for property of Mr. and Mrs. Robert Cunningham, 3252 Edgewood avenue, Mr. and Mrs. David Bergfield, 3256 Edgewood avenue, and Mr. and Mrs. William Duckworth, 3264 Edgewood avenue, all in Dream Villa addition No. 1, and the property of Mr. and Mrs. Stanley Kulowski in Dream Villa addition No. 3.

## UF Health Services Studying Aid Requests

Nine applications for assistance amounting to \$6030 were reviewed Thursday afternoon by members of the Health Services Council, an agency of the Tri-Cities United Fund. The council, which met for the first time this year, has a total 1966 UF allocation of \$7500.

After a study of the individual cases, council members authorized a portion of the requested funds and agreed to review each application in six months time. This action was necessary, Arthur R. Roseman, council chairman said, due to initial requests far exceeding early applications made to the agency in previous years.

Six of the nine applications, totaling \$5320, involved payments for hospital and medical bills, incurred by indigent persons ineligible for other forms of public assistance.

In some instances, it was explained, bills were incurred prior to the person qualifying for disability social security pay. Most of the cases reviewed would not be eligible for funds under the new Medicare Act, Solenberger reported.

### Respirator Needed

Two cases, requesting \$477 in funds, specified assistance for necessary drugs and other needed medicines and one item involved purchase of a respirator unit, valued at \$232, to be utilized by a 15-year-old home-bound asthmatic victim. Full payment was authorized for the latter request.

John Solenberger, UF executive director, reported 1965 financial expenditures of the Health Services Council at \$7763, with the major portion going to victims of heart ailments, \$2409. The second highest allocation was for cancer patients, totaling \$1719.

Fourteen other categories for medical assistance received help in 1965. Solenberger said, including, sight, kidney disease and d polio, plus payment of certain supplies for the free monthly insulin.

# THE PASTOR SPEAKS

**REV. ROBERT CARR**  
Mount Zion General Baptist Church

"Speak unto the children of Israel, that they go forward" (Exodus 14:15).

In their flight from Egypt, the Israelites suddenly found themselves trapped. The Egyptian army was in hot pursuit and they were stopped from forward progress by the Red Sea.

Their situation seemed to be hopeless. God instructed Moses to order the people to march forward with the promise that he would open the sea to them; then pass over on dry ground.

**Progress Requires Goals**

Crossing the Red Sea was an important step in their goal of reaching the Promised Land. The human desire for progress involves deciding upon proper goals.

A certain speaker arrived in town a little too late for his scheduled speech. He called a taxi and urged the driver to drive fast or he would be late.

As the driver sped through town during in and out of traffic, the speaker asked, "Do you know where I'm going?" "No," replied the cabbie, "but I'm sure driving fast."

The American dream of progress in educational, social and political life must be judged in light of the desired destination. For example, man has progressed in building instruments of war but regressed in his ability to live in peace. Progress has been made in prolonging life

but many have nothing to live for.

**Space Exploration**

Space exploration has made great strides toward landing a man on the moon. However, man's desire for progress is not matched by his conquest of inner space. Social progress seems doubtful in the face of rising crime rates and a growing number of broken homes.

The course of juvenile delinquency casts a long shadow of doubt on man's progress in psychology and education.

Man is like a switch engine in much of his activity. He goes back and forth on a side track when he should be speeding forward to his destination on the main track.

**Purpose in Life**

Man's purpose and destination are not to be found in psychology, medicine or history. Purpose in life is to progress, he must define his purpose and determine his destination.

According to the Westminster Confession of Faith, man's chief end in life is to "glorify God and enjoy him forever."

Progress in the sciences is real progress for the human race only when it leads man to glorify God and accomplish his purpose. Man's use of atomic energy is progress when used for the benefit of humanity, it is man's man's regression when he uses it for destructive ends.

The Apostle Paul expressed the direction of his life's progress in that direction in Philippians 3:14: "I press toward the mark for the prize of the high calling of God in Christ Jesus."

## Sewer Service For Grigsby Junior High

Grigsby junior high school sanitary sewer service provides an excellent opportunity for the kind of inter-governmental cooperation exemplified by the support accorded the park district ice skating rink proposal.

In this case the school district must in some fashion solve the drainage problem involved in building a major new school outside city limits and far from city services. It is looking to the city council for a helping hand—permission to tap into the nearest Grigsby city mainline. And it is willing to bear the cost of the 3900-foot connection and related pumping stations. Absence of such permission might force a lagoon or a combination treatment plant and pond, neither of which affords a satisfactory solution.

The city stands to gain a valuable sewer extension, onto which property owners between the school and the present sewer terminus could connect in future years. With the large Granite City treatment plant capacity becoming available this spring, and with other sewer system improvements inevitable in any case, there is immense logic in taking an affirmative stand toward the needs generated by fringe area growth.

The City Planning Commission recommendation—tap-on authority in any eventuality and annexation of the school site if legally possible—offers a direct and constructive approach.

To obtain police jurisdiction and other municipal services, the Madison school district has annexed its high school campus to the city of Madison, even though they are still separated geographically. Although it has not been discussed, our guess is that the Granite City school district would be happy to annex its 20-acre junior high tract to Granite City in exchange for permission to join the sewer system.

The plan is not only economical to taxpayers, but also makes sense from the council's standpoint because Grigsby junior high will serve many students residing within the city.

## Nameki Road Property Owners Should Remove Paving Obstacles Immediately

The flexibility or inflexibility of U. S. Bureau of Public Roads officials in their procedural regulations undoubtedly can affect the rapidly with which Nameki road is widened and improved. But the fundamental question is how soon several dozen encroachments—some simple to remove and others much more complex—can be cleared from the path of the bulldozers and paving machines.

Regardless of how lenient government engineers might be, obstacles must be physically absent from the scene before a contractor can get to work.

This is the problem—attributed to insufficient consideration during changes among state and highway and municipal personnel—that has caused the latest delay in the badly-needed project, now on the annual highway improvement list for the eighth successive year. Hindsight shows that overhanging signs, posts, canopies and buildings should have been eliminated last year during the period provided by the 1965 bid call postponement.

Because actual clearing of the right-of-way is essential, the widening effort at this point is an impediment to start on removal work. In at least two cases, this may involve extensive remodeling of busy business structures. The longer the delay in starting such remodeling, the longer before Nameki road can be improved.

The delay already has been so long and the demolition has become so tedious, costly and inconvenient that the affected property owners would act voluntarily and at once to eliminate all impediments from the path of the paving work. Many already are doing so.

The amount of additional damages, some undoubtedly justified, can be settled in court and such suits can still be filed. Those filing claims—based on the amount of their damages as of September 1965, when the condemnation petitions were filed—must eliminate the overhangs now without prejudicing their case. Of course they will need photographs of the encroachment prior to its removal, since the jury could not subsequently inspect it.

The property owners' interest must be protected. But they can protect themselves—to the extent that they can persuade hearing juries—regardless of whether the cost of removing the encroachment already has been borne. In fact, their bill for the removal would be an indication that they actually had suffered a loss.

Further delay in moving the right-of-way boundaries can serve a purpose other than to stall the widening and harm this community.

We hope that the response by property owners is 100 per cent. If it is not, the state should go to court at once to obtain the "quit or assist" vacating order. The more logical might have been a part of the "quick take" site acquisition proceedings. The right to use land, after all, is not a very clear-cut right unless it includes not only the ground itself but the air above it.

Everyone can start a task; thoroughbreds finish.

Guests were Miss Satarick Donolan, Miss Versenig Harolan, Mrs. A. J. Bendle, Mrs. Lynn Alice and Mary Mcgrichlan. Miss Caroline Bedian, the guest of honor and the hostess.

## TODAY'S INVESTOR

**BY THOMAS E. O'HARA**  
Chairman, Board of Directors  
National Association of Investment Clubs

I recently resigned from a company that has a profit-sharing fund, receiving about \$30,000 in stock. I realize this is a growth stock (Sears, Roebuck) but a broker of whom I inquired about mutual funds wants me to sell \$10,000 worth of it and put this into an income mutual fund. I feel this would add to my income tax at this time, since my husband has about four more years to work before retirement. Any advice you can give me will be greatly appreciated.

A. Not knowing details of your income, investment or tax situation, I find it difficult to advise you. As a general principle, however, I believe that diversification is important.

Sears is an outstanding company and one that seems likely to continue growing for many years; nevertheless, I would feel that converting a portion of your stock into other securities would be wise.

On the other hand, your letter indicates no need to act hastily. You may wish to talk to, how, your banker and see what advice he will give you.

You should look carefully at the long-term record of the mutual fund you are considering, hope.

There are hundreds of funds and their records vary considerably. Figure It Out

So that the tax situation won't scare you so much, why don't you figure out exactly what it would amount to if you sold now, as against four years from now when your husband has retired. I doubt that the additional tax you would pay now would amount to more than the 7% to 9% commission you will be paying when you buy a mutual fund.

Your situation points up one of the important ways a person can profit from membership in an investment club. Too many people spend their working lives accumulating money for retirement, but in no investment experience.

Activity in an investment club, however, is a marvelous way to equip oneself to understand and act on investment advice at retirement time.

## Pledges for Religious Center At SIU-SW Total \$233,580

A total of \$233,580 has been pledged in the initial week of fund raising campaign for construction of an Inter-Faith Religious Center on the Southern Illinois University - Southwest Campus, according to George Wilkins, general campaign chairman.

Of the amount, \$200,000 represents identical pledges of \$40,000 each made by five denominational groups, and the remainder has come from business and individual contributors. The campaign goal is \$579,000.

The fund drive, which got underway this month is expected to reach its climax in March, Wilkins said, and it is hoped that

groundbreaking ceremonies for the center can be held in midsummer.

The 21,000 square foot building has been in the planning stage for five years by the SIU Religious Campus, an entirely self-supporting organization. Initially, the building will have eight private suites of offices, three classrooms, a meditation chapel and each made by five denominational groups, and the remainder has come from business and individual contributors. The campaign goal is \$579,000.

## Smith Named Acting 'Y' General Secretary

Dan Smith, a member of the YMCA staff, has been named acting general secretary of the "Y" board currently is re-

viewing eight applications for the position. Smith plans to enroll in the fall in the Ph.D. degree program at the University of Illinois. He will be here until August; it is hoped he will remain on duty this year as well.

Many golden opportunities are lost because men lack the initiative to throw the switch.

The FAC of St. Peter's church met with Mrs. Leland Markgraf, 2004 Grand avenue. Miss Ester Ruth Jamison, president, was in charge during a brief business session and the name of Miss Linda Boenesthai was added to the membership list.

Guests were Mrs. Ernest Harpole and Mrs. John Harsh. After the business hour, the evening was spent at games, prizes given to Miss Alice Boenesthai, Mrs. Virginia Mclester, Miss Thelma Weissenborn and Miss Linda Boenesthai.

Miss Dorothy Myerick was hostess to Girl Scout Troop 15 at a meeting. After a short business meeting, refreshments were served. Games were played and prizes were awarded to Mitzie and Len Simmons, right second supporter.

Instead of the usual evening meeting this week, members of the VTB bridge club were entertained by Mrs. Earl Coe of St. Louis at a party in her home. Luncheon was served at one o'clock to the club members and two guests, Mrs. Elmer Kuehn, a man of Nameki and Mrs. Jane Dorman of St. Louis.

After a meal table was arranged for bridge. High scores for the afternoon were held by Mrs. Walter Gillen, Mrs. Clark Kuehn, Mrs. Fred Cease and Mrs. Emil Erickson.

Mrs. Nellie North of El Campo, Tex., a former Madison resident, was complimented with a party in the home of Mrs. Bella Ridge, 1864 Fifth street. There were two tables of bridge and piano and tallies were written for Mrs. North, Mrs. Alex Lybarger, Mrs. A. J. Schooley, Mrs. W. H. Henry, Mrs. Fannie Allard, Mrs. Henry Connole, Mrs. Cecil Keller and the hostess.

Vernon Parks, 22, of 2135 Benton street, was arrested a.m. Saturday on charges of creating a disturbance and unlawful use of a weapon, threatening to use a hunting knife during a family dispute.

## Traffic Cases Dominate Court Filings During '65

Traffic cases accounted for nearly half the number of cases filed in circuit court during 1965, Willard V. Portell of Granite City, Madison county circuit clerk, reported today. There were 10,486 cases in the magistrate's division.

He said a total of 23,970 cases were filed, a slight increase over 1964.

Recent appointment of two additional magistrates for a total of seven has helped in keeping up to date with the filings, Portell said.

With a population of more than 240,000, Madison county now has three circuit court judges, five associate circuit judges and seven magistrates to conduct judicial proceedings at all levels.

In cases involving less than \$500, there were 1116 suits, including 179 jury cases and 937 non-jury cases.

**County Runs Ahead**  
The county is running ahead of most comparable counties in trying cases, Portell said, "therefore we have less of a backlog of cases, such as law and traffic."

He said that in a county of similar size, there is a 15-month wait for a lawsuit to come to trial, in other counties there is a two-year delay and in Cook county there is a five-year wait. "Our range is 12 months," he said, if the lawyers are ready to try a case.

There were 2062 small claims cases, civil actions not in excess of \$300, an area in which Portell predicts an increase this year.

He said many merchants have learned that they can seek collection through the court without an attorney or collection agency.

by filing complaints themselves. They are mailed by magistrates who also handle traffic, quasi-criminal and other proceedings.

**Other Cases**  
Also filed during 1965 were 271 tax objections, 28 condemnations, 796 miscellaneous remedies, including mental, 186 chancery, 561 family, 637 probate, 132 felony, 4783 misdemeanor and ordinance violations and 1033 divorces.

Highway construction in the county may mean more condemnation cases this year, Portell said. He also expects the number of felony cases to be lowered because of the new juvenile court act and improving methods by local police. Burglary accounts for the largest number of felonies by far, he added.

The traffic cases are below the average for comparable counties, he said, but noted a sharp increase in traffic arrests in some areas.

**More Divorces**  
There are more divorces per capita in Madison county than in comparable counties, Portell said, but he hoped the rate would decrease during 1966.

He said that he and Chief Circuit Judge Harold R. Clark are encouraging police in smaller villages to utilize facilities of the magistrate's division and step up local traffic enforcement.

Portell also pointed to new flexibility in handling cases given to magistrates by the 1963 State Legislature. Magistrates, in addition to other duties, can now hear cases up to \$10,000 which formerly only a circuit or associate circuit judge could hear. Magistrates also conduct state hospital hearings.

## Local Hospital Joins Medical Audit Program

St. Elizabeth Hospital has joined more than 400 other hospitals across the nation who participate in the Medical Audit Program and Professional Activity Study, it was announced jointly by Sister Mary Thomas, administrator, and Dr. Arthur Intriere, liaison physician for the programs from the hospital medical staff.

Computers are the basis for the programs which are offered by the Commission on Professional and Hospital Activities (CPHA), a non-profit organization. The American College of Physicians, the American College of Surgeons, the American Hospital Association and the Southwestern Michigan Hospital Association sponsor the CPHA.

An abstract of each patient's record who has been dismissed from the hospital is forwarded to CPHA by Miss Maureen Geraghty, medical record librarian, here, and fed into a computer. CPHA provides a coded abstract of each record indexed by disease, operation, physician, surgeon, and patient. The medical staff will then use this data in monthly committee meetings.

Other special services are available to the hospital for special projects, research, and comparisons with other hospitals.

The use of the programs is expected to vastly increase the capacity of work capable of being performed by the medical staff committees and thereby increase the value of each committee.

## Charter Granted For Madison Birthday

A not-for-profit charter was issued last week by Secretary of State Paul Powell to the Madison Diamond Jubilee Corp., as the city of Madison is preparing to celebrate its 75th birthday this summer.

Named as officers in the charter are Mike Sasyk, Mayor Stephen Maurer, Police Chief Emmett Puzia and Edward R. Dubish. George Filcitt Jr., Granite City attorney, was named as the civic correspondent.

In another action, the corporation charter of Thomas E. Kent & Co. of Granite City was dissolved.

**SCALE MODEL** of the large basic oxygen furnace plant under construction at Granite City Steel Co. It will cover 3½ acres of ground and will be 180 feet high (about 15 stories). The back structure (left), which is

connected with the main basic oxygen furnace plant by a large-diameter gas main, will house the largest electrostatic precipitator in the area.

## Orange-Colored Sky to be Gone Next Year

The Quad-Cities' orange-colored sky is to end next year when Granite City Steel's new basic oxygen furnaces go into operation, equipped with a \$3,500,000 electrostatic precipitator system.

Design specifications call for the precipitators to clean the gases from the BOF vessels to where they contain as little as 0.03 of a pound per 1000 pounds of gases (equivalent to 0.05 grains per standard cubic foot).

This is well below the allowable maximum of 0.50 of a pound per 1000 pounds of gases specified in air pollution control regulations, it was explained.

Nicholas P. Veeder, chairman of the board and president of Granite City Steel, said it is expected the precipitators will be the first units completed in the huge basic oxygen furnace complex. Structural steel framework now is going up on the 3½-acre "behind-the-mill" area.

"The company," he added, "wants to be sure they are ready when we begin making steel in the BOF plant early in 1967."

**Replace Open Hearths**  
The BOF plant, which will replace the present open-hearth steel-making open hearth furnaces, are being engineered and built

by the Koppers Co., Inc., Pittsburgh, which also is handling the precipitators and is the leading builder of such facilities.

Similar electrostatic precipitators have been thoroughly tested in other BOF plants which the Koppers Co. has previously completed and which have operated for substantial periods of time.

Each of the three double-chamber electrostatic precipitators to be installed at the local BOF plant will be about 40 feet high, 70 feet wide and 38 feet long and will contain 68 gas lanes and four electrical fields six feet in length.

The hot waste gases from the basic oxygen steel-making process at the mill will be cooled to about 450 degrees, F., as they pass through a 112-foot-high hood and evaporation chamber above the BOF vessel. The hood and chamber will be 20 feet by 16 feet and cooled by 500 to 700 gallons of water per minute.

The gas will then be dried and carried to the precipitators through mains 1½ feet in diameter. The gas will be moved through the cleaning system by three big, induced draft fans with a total capacity of 800,000 cubic feet a minute.

**Collecting Electrodes**  
The collecting electrodes in the

precipitators will consist of mild steel flat plates three feet by 24 feet mounted two per row in each field, making a total of eight plates in each precipitator in the direction of gas flow with an effective area of 78,336 square feet. Pneumatic impulse rappers will automatically clean the electrodes of dust.

The steel industry's most difficult air pollution problem has been that of cleaning open hearth furnace gas of the extremely fine particles of dust resulting from the high-temperature steelmaking process.

The orange-colored smoke characteristic of open hearth steelmaking operations, despite considerable research on control methods, some of it conducted at Granite City Steel, will definitely not be characteristic of the new basic oxygen furnace steelmaking, Veeder said.

Members of the committee include Marvin C. Slate Jr. and William Brandt, Granite City attorneys. Slate is to serve as one of the attorneys at a civil mock trial to be held Feb. 7.

## 7000 Illinois Farmers To Meet at Champaign

American Farm Bureau Federation President Charles B. Shuman and Illinois Gov. Otto Kerner will join more than 7000 Illinois Farm Bureau members Jan. 26, in celebrating the 50th anniversary of the founding of the Illinois Agricultural Association. Both will address bureau delegates in a 2 p.m. program to be given in Assembly Hall, at the University of Illinois, Champaign.

Shuman, a Moultrie county farmer, who served as IAA president from 1946 to 1954, and Gov. Kerner, who shares with the Farm Bureau an interest in expansion of foreign trade for Illinois products, will be special guests at a 11:30 a.m. founder's day luncheon, to be held in the men's residence hall.

Another highlight of the state meeting is scheduled for 10:30 a.m. the same day, when a plaque will be unveiled in Davenport Hall on the U. of I. campus. The hall is the same building, where farmers from 11 Illinois counties originally formed the IAA, which has since grown to the largest state general farm organization in the nation.

## Sheriff Says Board Lacks Data on Tax

Sheriff Barney Fraundorf, who is proposing that a special tax be levied to provide for more deputies, claimed today that many members of the county board of supervisors are not familiar with the operations of his office and "some do not care to have the facts."

Fraundorf, who has asked for a special referendum on the proposal as provided in state statute, said "many of the jobs that we seek to help our citizens with are not our responsibility, but we do get blamed for these if they are not done properly."

Problems and services belonging to other departments for which his department is criticized, he said include those of the humane officer (dogs, both live and dead), health problems belonging to townships and those existing because of manpower shortages.

Included are mental patients; transportation of prisoners from the city to the county jail and incarceration of tavern closing hours. He said the liquor law requires taverns to close their doors at a certain hour and prohibits sales of liquor after hours, but that the tavern can still stay open all night.

He said one supervisor claimed that night riders spend most of their time checking closing hours and prostitution, which takes them away from regular patrol duties, but that only Chief Deputy George Ramach and 20 to 40 volunteers check the establishments, except in rare occasions.

Another city supervisor said he would not support the referendum because urban residents are paying for their own police protection and should not pay a double share, according to the sheriff. He pointed to other U. S. and state law enforcement agencies which also are financed with urban taxes, and that all are necessary to minimize crimes.

He will show color slides of Saigon and the surrounding area. Another member of the team was Capt. Charles James, director for administration at the depot. Team members were selected from Army supply depots throughout the United States to assist units of the 1st Logistics Command in Vietnam.

While there team members "adopted" a fatherless boy of seven and provided finances to support his family for two years.

## Madison Men Named in Indictments Arraigned

Arraignments for six defendants, including two Madison men, named in criminal indictments last week by the Madison county grand jury, were held today in circuit court at Edwardsville. They are George Elkins, 907 McCambridge avenue, and Frederick William Kingsley, 41, of 24 Garetsche Homes.

Elkins is charged with forging an \$80 check drawn on the account of Harold H. Rapp, 3200 Wabash avenue, at the First Granite City National Bank on Oct. 21. Kingsley is charged with taking indecent liberties with a child last Oct. 14.

A no-trial bill was returned in the case of Clarence Baker, 38, of Alton, who had been charged with reckless homicide in the highway death of Mrs. Mary Esther Couseley, mother of Paul S. Couseley, editor and publisher of the Alton Evening Telegraph, last Aug. 28.

He is survived by his wife, Mrs. Beulah Lurance; two sons, Dewey Leonard Lurance and Daniel D. Lurance, both of Granite City; two daughters, Mrs. Richard (Linda M.) Davidson and Mrs. Donald E. Vander, both of Granite City; a sister, Mrs. Theodore (Elizabeth) Swiger, Collinsville, and nine grandchildren.

On Wednesday, Monnier was adamant in his stand against approval of a bid call for Nameoki road until all encroachments were removed.

These included the Levi Duke Welding shop at 4012 Nameoki road, Hoelscher's Market at 3828 Nameoki road, and the U. S. post office branch at 3809 Nameoki road.

Hoelscher's market and the welding shop are to be razed. Mayor Parney said he thought the meeting Thursday "worked out real well and I feel that we
